(Sorry it isn't Structured.
Additions for Typesetting and Formatting will be announced shortly.)

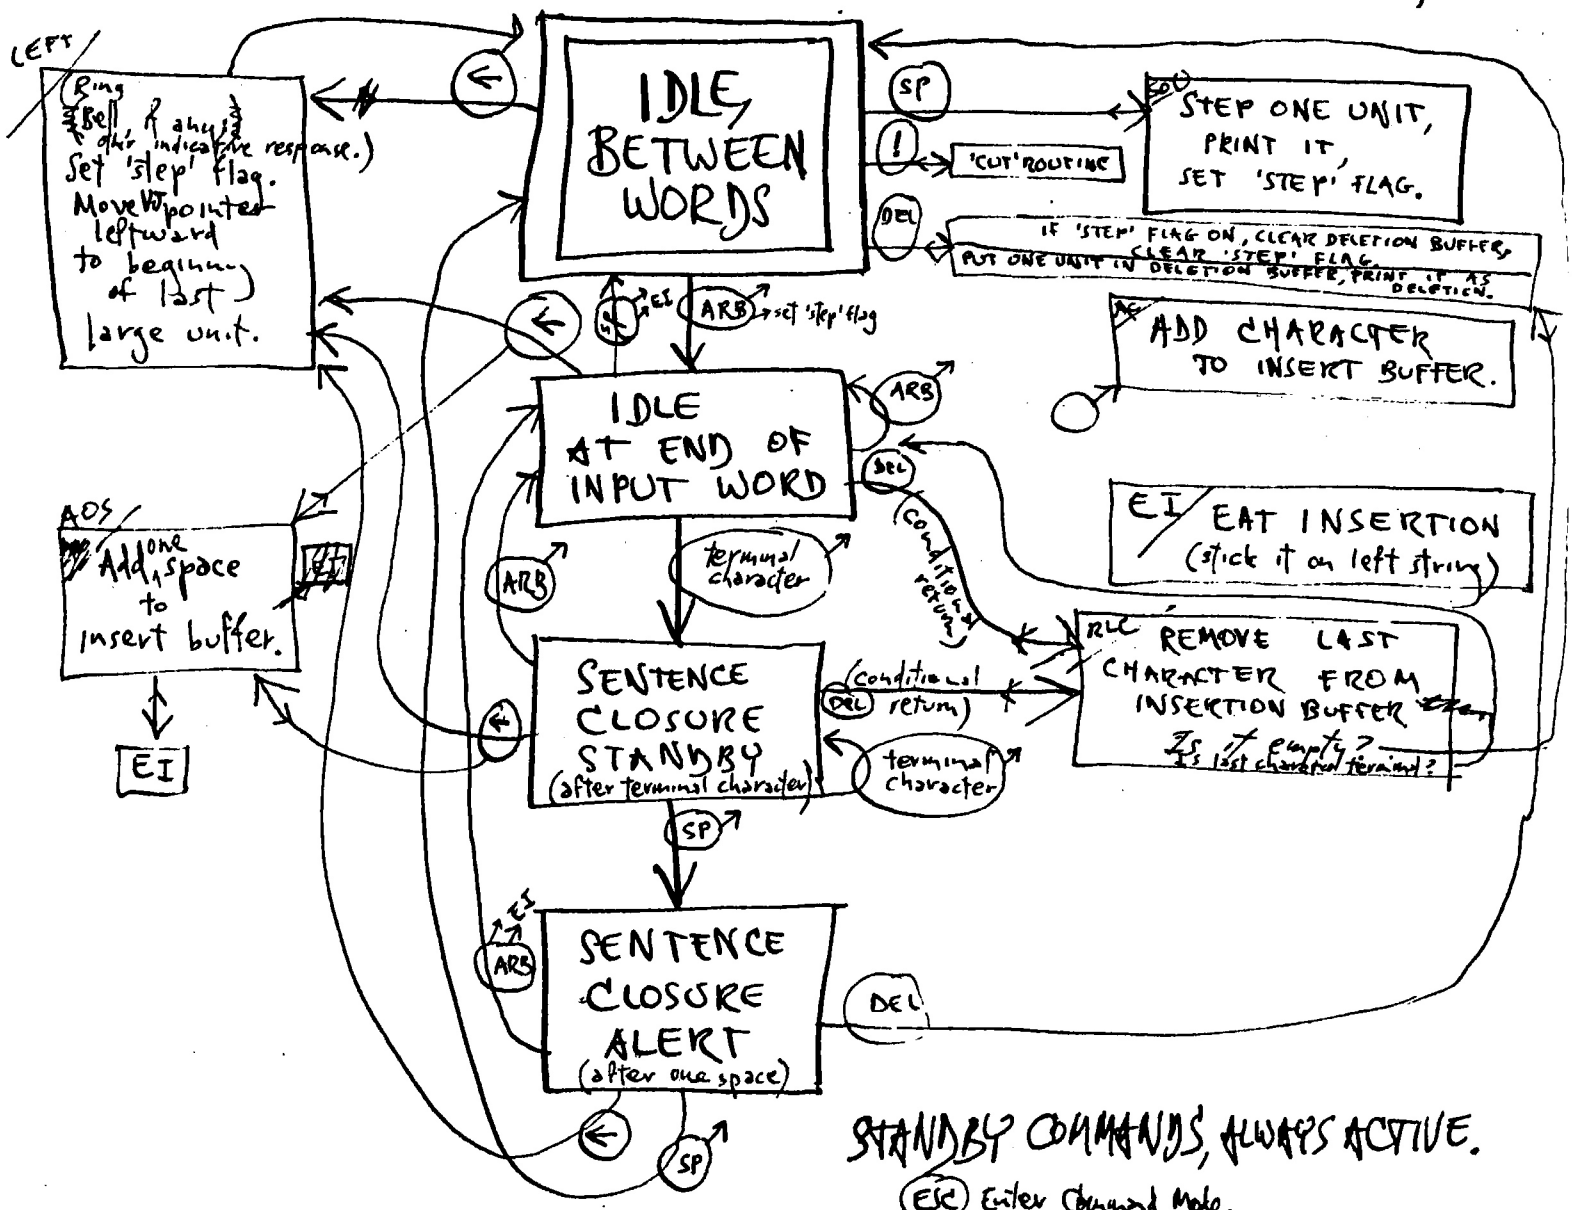
○ means a key; □ means a process.

⟷ means subroutine jump. ⟷ means ~~conditional~~ subroutine jump with conditional exit elsewhere (Dijkstra will kill me).

(ARB) any key not otherwise mentioned.

(A) ~~A subrout~~ Key (A) subroutines to α. (If α unspecified, it's the ADD CHARACTER TO INSERTION BUFFER subroutine.)

(A) → if ~~A, for~~ character A input, follow arrow. (A) → subroutine on the way.



STANDBY COMMANDS, ALWAYS ACTIVE.

(ESC) Enter Command Mode.
(↑) Raise level of unit (if possible).
(↓) Lower level of unit (if possible).
(SHIFT) Permacaps.
CTRL SHIFT (P) New paragraph.
(RET) Review Cuts.
(LF) Interchange Pieces. (RET) ~~shift~~ (LF) repeatedly function till next cut.
